

Power of ME

What is Power of ME?

Children have the power to protect themselves. Power of Me is one of three key programs in MADD's underage drinking and drug prevention initiative.

- Power of ME is a free virtual classroom or auditorium based alcohol use prevention and vehicle safety presentation for 4th and 5th graders
- The program educates students on the power to protect their brain, power to protect themselves on an unsafe ride, and the power to use good decision making and communication skills
- A special parent resource accompanies the program designed to encourage parents to reinforce the key messages at home.

"I have the POWER to take care of me, so I will grow and someday be, 21 years old and you will see, the very best grown-up I can be!"
